

Hands of Hope International

Helping hands for a hurting world

September 2006

Dear Friends,

JUST EIGHT MINUTES! That's all the time it will take to look at everything in this mailing. I apologize for its length, but there is so much to share with you. And think about this . . . during just those eight minutes, 167 children will die and 34 will become orphans due to AIDS!

I am enclosing three pages.

One is a report from *Seeds In HIS Garden*, the primary mission of *Hands of Hope International*.

Another covers some of the other activities that *Hands of Hope International* has been involved in during our first year of operation.

The final page is called *Creative Giving Ideas* and describes a couple of great ideas for giving. There is also an opportunity for Designated Giving.

I am pleased to report that we continue to send **100%** of all contributions to the mission for which they are designated. Nothing is taken out for administration. This is made possible by generous gifts from the members of our *Hands of Hope International* Board.

On behalf of all those we are able to assist, I want to express my deep appreciation for your generous and faithful gifts. **Thanks to you, we are truly making a difference!**

In God's Love and Grace,

Wayne M. Adams
President
